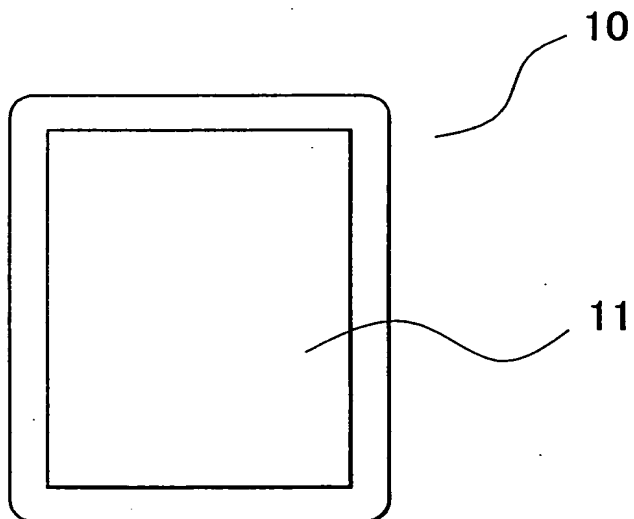

FIG. 3

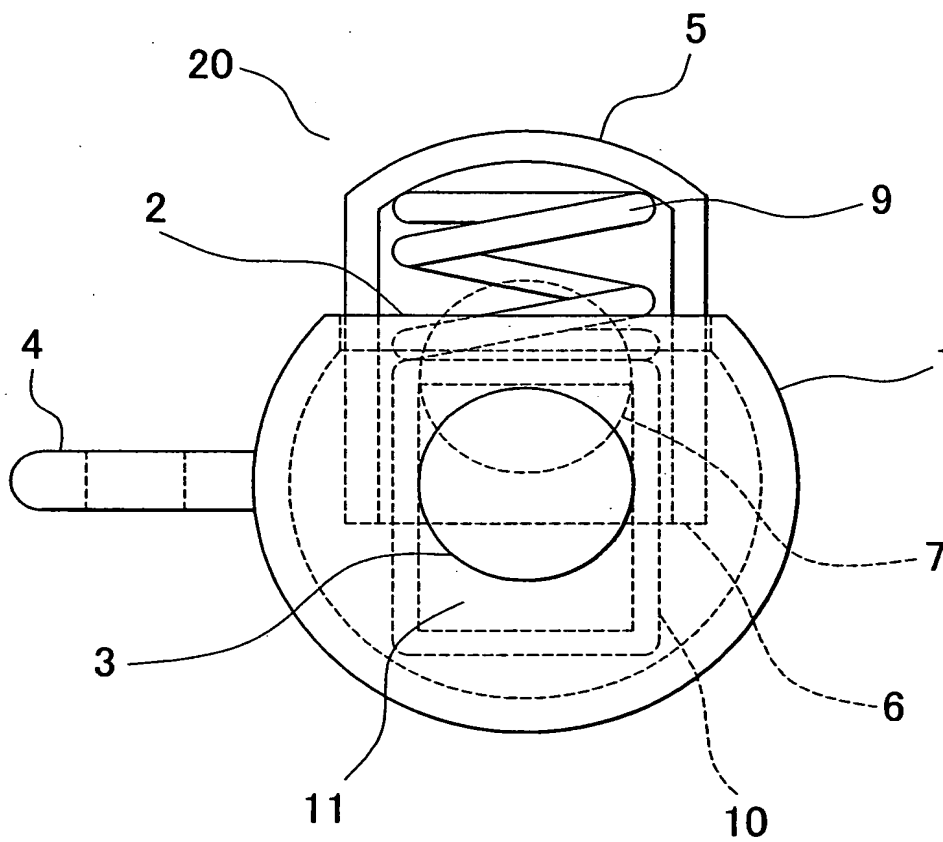

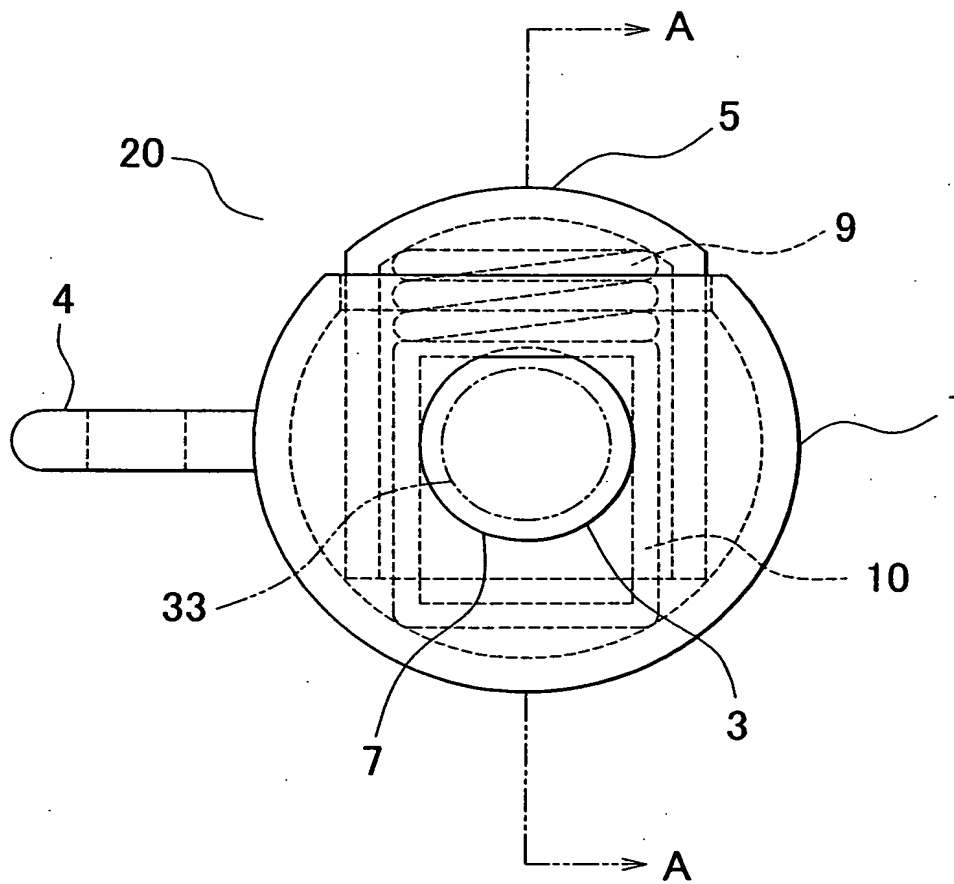

FIG. 4

A cross-sectional view of a spherical device. The outer shell is labeled 1. Inside, there is a central rectangular component labeled 10. Surrounding this central component are four vertical rectangular blocks labeled 3. The top of the device features a series of horizontal, slightly curved elements labeled 5, which are held in place by a structure labeled 9. A dashed line labeled 33 indicates a horizontal plane or interface within the device.
